
Seminars in Genetics and Molecular Cell Biology

Clemens Steegborn

Department of Biochemistry,
University of Bayreuth

**Metabolic sensing by Sirtuins
and soluble adenylyl cyclases –
Function, molecular mechanisms,
and drug development**

Monday, July 7, 2014 at 2.00 p. m.

CECAD Forschungsgebäude, Joseph-Stelzmann-Straße 26,
lecture hall, ground floor

Host: Michael Lammers, Institute for Genetics,
University of Cologne
